25 Years - Thank You!

Congratulations! We want to thank you for always taking such good care of all of our animals from hogs to cats and finally dogs. Thank you for bringing Molly into our lives, a very good dog and very special to all of us. Also, thank you for saving Sallie, without your input we probably would have put her down. You and your staff are always so caring and knowledgeable. Thank you again. **The Yoders**

I so miss the care you gave Cody before we moved to Florida. I have not found anything like the care and services you provided Cody down here. I was amazed the first time I took Cody to the vet down here and they didn't take his blood pressure!!! Oh and no table that lowers to the floor either. The vets down here are all really expensive and don't provide a fraction of the exam that you always did. I miss Indiana for sure. I called the office this morning to get Dr. Nahrwold's recommendation for a non rawhide chew, but since he believes in and stocks the tarter shield brand I went to their website and ordered some chews. Cody has never had a heart monitor as part of his vet check ups either. Keep up the good work you do for all of your clients, and I wish I was still one of them. Thinking of you fondly. **Gerber's**

Congrats on both milestones! I know that my parents and sisters are more than thankful for all of your love and compassion to their pets throughout the years. I wanted to take this opportunity to update you on Max's status.

In July, Max received the first of his heartworm shot treatments to kill the worms in his system. It made him sick, but after 3 days or so, he perked back up and was acting like his normal ornery self. Max just received the second, 2-shot treatment to finish off the heartworms. This time he did not get sick, and in fact has been more playful than he was months before I even brought him into you for evaluation.

Thank you so very much for taking Max and I into your fold and for testing him; had I not brought him in, Max very likely would have passed away like my boyfriend's other dog did and we would be left asking why. I cannot tell you how much heartbreak your testing Max has saved us all.

I wish you nothing but the best, and when the need arises, I will be sure to call you for any of Max's other needs.

Congrats on your **35 years** and **your 25 years** !

What great blessings from above. There are so many things to be reflected on in those time periods.

Of course, I think the most important is the Christian family you have gathered around you!

And another wonderful note is: Seth is in the next chapter, God-willing !

Praise God !

We won't be seeing you at the clinic for an unknown period as our 7 yr.(with us) 13-14 yr old Beau (Golden Retriever)...**"Beauregarde"...** is no more. While gone on vacation recently, he quit walking, apparently due to some pinched nerve. It was a tough good-bye, but we had seen some of the writing on the wall for the last 8 mos. or so to prepare for his departure.

Thank you for your loving care & attention you gave him.

I like to think we will be back... I just don't know 'when.'

Farewell for now, and God keep you in His grace as you walk in His ways. Dearly, The Messmanns
